

CRUZ COOL™

Sustainable Cold-Chain Cooler

atlanticpkg.com | (800) 722-5841

Cruz Cool is the world's premium, sustainable, insulated protective box to safely ship your perishable goods door-to-door. This product is the sustainable replacement for traditional EPS foam coolers, using compostable Cruz Foam inside.

KEY INDUSTRIES

seafood

pharma

cold-chain

DETAILS

A quick and easy to assemble product that matches your brand experience with a clean and integrated design. Ideal for shipping seafood, meal kits, pharmaceutical, specialty foods, and other cold-chain needs.

SUSTAINABILITY

Cruz Foam is home-compostable. In the recycling process, Cruz Foam is washed out and not harmful to cardboard recovery. Cruz Cool is curbside recyclable and has passed recyclability testing at Western Michigan University.

FEATURES

- Customizable box dimensions
- Standard 1.5" thickness for various applications
- 48-hour thermal protection
- Equivalent R Value to synthetic alternatives
- Customizable one-color printing
