

## Sustainable Pallet Sheets that Save Money & Space

The LayerShield sustainable packaging program offers recyclable, thin paperboard sheets that are compatible with automatic palletizers and made from 100% recycled fibers. Optimize material usage and protect your products from nail heads, splinters, grease, dirt, moisture, and more during shipping, storage, and retail display.

### Customizable Designs & Sizes

- Calipers: 17pt, 24pt, 30pt
- Square, Round, or Custom Corners

### Sustainability

- Made from 100% recycled fibers with a minimum of 85% post-consumer fibers
- Acceptable at commercial OCC recycling programs
- Paperboard grades available that are certified by chain of custody programs

### Cost & Space Savings Compared to Corrugated Sheets

- 15% materials cost savings at minimum
- Store 5x the amount of sheets
- 5% weight reduction at minimum for lower freight costs

**Save Money & Space While Reducing Your Environmental Impact with LayerShield!**

We can help sustainably optimize and validate your packaging for transit through ISTA-certified testing at the Packaging Solution Center!

### Packaging Applications

- Pallet Liners
- Slip Sheets
- Top Covers
- Tier Sheets
- Pallet Pads

### Material Replacement Opportunities

- Corrugated
- Gypsum
- Honeycomb
