

# CRUZ COOL™

## DISPOSAL INSTRUCTIONS

We encourage you to reuse your Cruz Cool before disposal. Should that not be an option, the below instructions will be the cleanest path toward a sustainable packaging economy.

### 1 **COMPOST:** Cruz Foam Only

When you're ready to part ways with your cooler, it is industrially compostable per ASTM D6400 standards. Check to see if your municipality participates in a composting program or dispose of it anywhere that accepts compostable packaging.

### 2 **RECYCLE:** Outer Box Only

This box is recyclable and is able to be repurposed back into usable paper pulp via your local recycling plant. Place this item in the recycling bin.
